HISAKAGE®

Refrigerator

VG Series—304 Air Cooling Refrigerator

Model：☐ LRVG-180

LRVG-180

Specification

- Model ：LRVG-180
- Capacity：450L / 360L
- Temp：-2~15℃
- Cooling Mode：Air cooling
- Refrigerant：R290
- Shelf Layer：3
- Insulation Material：Cyclopentane
- Sheet Metal：304SS
- Voltage：220V
- Power：420W
- Size：1800*760/600*(700+100)

Product Features

1)Computer board intelligent control,fault diagnosis function.Temperature accurate to 0.1 degrees,temperature difference in the box does not exceed 2 degrees,

2)Stainless steel door handle,beautiful, strong, durable, can be better matched with customers products.

3)Horizontal refrigerator adopts front air filter, easy to clean, the front suction front wind can adapt to the use of closed environment, no drainage, automatic evaporation.

4)The foam layer thickness of the box is ≥60,the foam thickness of the door panel is ≧55, the door panel is flush with the ventilation window, the door automatic return to ensure food safety when the angle is ≧45°

5)Environmentally friendly refrigerant R290,avoid air pollution, cyclopentane fluorine-free environmental protection, 60mm thick high-density foam insulation layer, better insulation performance.

6)The heating wire is hidden in the door frame to avoid condensation, the circular arc design in the box is helpful for daily maintenance, and no dead corners are left

7)Adapt to the high temperature 43℃ environment design, can meet most customer needs

Brand Compressor

R290 refeigerant,efficient, energy saving,better cooling ettect.

Intellectual Temperature Control

Precise temperature control automatic detection&alarm
